1. Between 18 and 20 December 1950, no troops were loaded or unloaded in the Zossen-Wuensdorf (N 53°2' 91) area. No parking of empty rolling stock was observed either. Local residents agreed that no changes in the military situation occurred recently. \*

\*  Comment. The barracks installations of Wuensdorf, vacated by elements of the 19th Gds Mec Div, and reconditioned Camp Zossen north of Wuensdorf are probably earmarked for occupation by other Soviet units or by German Volkspolizei personnel. If the westbound trains which passed through Frankfurt/Oder on 17 and 18 December actually carried troop units to be quartered in the Zossen-Wuensdorf area, they should have arrived there by 20 December.  The present report, however, does not indicate that any troops moved into the billeting area up to 20 December. In this connection, it must be pointed out that any new units transferred to the Soviet Zone of Germany could also have been quartered in the Alten-grabow area which was vacated by the unidentified AAA division, possibly the 32d, of the GOFG.
